RE: Recommendation for Darlene Prott and Nicole Pepe (NJ Teacher To Teacher LLC)

To Whom It May Concern:

Darlene Prott and Nicole Pepe have been conducting math and language arts workshops in my district for approximately two years and I have always found them to be extremely well prepared, knowledgeable about the content of their presentations, and professional in their dealings with the administration and the staff. They are also reliable, flexible, and punctual in regard to all their presentations.

Their workshops have continually provided quality staff development for our faculty by maximizing teacher participation. They have provided our elementary teachers with a wealth of standards based innovative, hands-on, motivational ideas that can be readily implemented in their classrooms. The presentations are lively, exciting, and fun leaving the teachers feeling energized and renewed. Teachers always leave their workshops with a packet of activities and positive comments.

It is without hesitation that I recommend them for quality staff development presentations. Please feel free to contact me for further information.

Sincerely,

Mrs.Elaine Lombardino
